Professional Summary

Motivated B.Tech Computer Science student with a CGPA of 9.32/10. Skilled in Python, HTML, CSS, SQL, Git, GitHub, Streamlit, OpenCV, and PyTorch. Passionate about Artificial Intelligence, Machine Learning, Web Development, and problem solving. Seeking internship opportunities to apply technical skills and contribute to impactful software projects.

Education

Dr. Akhilesh Das Gupta Institute of Professional Studies (ADGIPS), Delhi

B.Tech in Computer Science Engineering (2024–2028)

Current CGPA: 9.32/10

CBSE Class XII: 80% (2024)

CBSE Class X: 94%

Technical Skills

- Languages: Python, C, Java (Basic), SQL, HTML, CSS
- Libraries: PyTorch, OpenCV, Streamlit, Requests, NumPy, Pillow
- Databases: MySQL
- Tools: Git, GitHub, VS Code, PyCharm
- Concepts: OOP, DBMS, Computer Networks, REST APIs, Machine Learning Fundamentals

Projects

AI-Powered Deepfake Detection and Media Verification System

Built an AI-based image verification system using Python, PyTorch, OpenCV, and Streamlit to detect manipulated images and generate prediction reports.

Stock News Alert System

Integrated stock market and news APIs to notify users of significant price movements with relevant news.

Habit Tracker using Pixela API

Developed a Python REST API application for tracking daily habits and visualizing progress.

Achievements

- Current CGPA: 9.32/10
- Completed multiple Python projects through Angela Yu's 100 Days of Code.
- Strong foundation in Python, AI/ML, DBMS, and REST APIs.
